LADIES OF LIONS HEAR U. S. OFFICERS TUESDAY

Ladies of the Lions club were received in the home of Mrs. Jack Gerson, Winter avenue, Tuesday evening, when they had as speakers, Lieut. Dorothy White of the United States Marine Corps, and Lieut. Layton, of the Waves, United States Navy.

Both officials related the opportunities given women enlisted in the United States service, and told of the privilege and honor given one in becoming a member of their branches of service. Highlights of the training periods, qualifications, and various avenues of duties best suited for each individual provided for their particular assignment, thus insuring their happiness while in the services of Uncle Sam. The speakers were introduced by Mrs. A. Pearson Furst, program chairman.

Preceding, President Mrs. W. F. Flannery, conducted a short business session.

Plans were made for their December 14 meeting with Mrs. Roy Conway, Glenmore boulevard, to be in the form of a Yule tea and gift exchange.

A social time brought the evening to a close.

**QUOTA CLUB GUESTS

GOLDEN WEDDING FOR SLIPPERY ROCK COUPLE

Mr. and Mrs. William H. Pattison, Normal avenue, Slippery Rock, who had a golden wedding anniversary on October 25, celebrated the occasion recently at their residence. The Pattisons are well known in this locality, having been former residents here.

A reception for upwards 150 guests was held during the afternoon and evening hours, and a family dinner served at the Penn-Grove Hotel in Grove City was a highlight. Mrs. Pattison, nee Kittie E. Mortland, was the daughter of the late James L. and Sarah Mortland of Keister road, near Mercer. He was the son of Alexandria and Martha Pattison of New Castle and Slippery Rock. They were united in marriage at a ceremony performed on the farm of the bride's parents, with the Rev. Perry Reno, then pastor of St. John's Methodist church, as the officiating minister.

Mr. Pattison, who fifty years ago was working on the main building at Slippery Rock college, is at present working as a carpenter on structures on the college campus.

Mr. and Mrs. Pattison have three daughters, all of whom shared in the golden jubilee, together with their families. They are: Mrs. Garrett O'Gallagher of Whittier, California, Mrs. Twila E. Lawrence of Pittsburgh and Mrs. Gertrude M. Patterson of Philadelphia.

COLLEGE CLUB HEARS SPEAKER ON "INDIA"

At a Guest Night program at The Castleton, Tuesday evening, College club members heard a speaker who presented her views on "India In This Crisis" in a manner so charming and delightful as to make her lecture an outstanding event of the club agenda. She was Dr. Eileen W. MacFarlane, American citizen who was educated here and in England and spent some years in India, doing research work among the people of the native states of that country.

In addition to modeling native costumes of Indian women, costumes both beautiful and complicated, Dr. MacFarlane dealt chiefly with the religious philosophies of India and the caste system that stratifies its people. She defined caste as a group who inter-dine, inter-marry, have the same customs, prejudices and superstitions, fear those above them and despise those below them. Their religion is the first concern of Indian people, she said.

Dr. MacFarlane was introduced by Miss Margaret Reher. Preceding her appearance there was a business meeting of the club when two new members, Mrs. Everett Martin and Mrs. Charles Jaquish, were welcomed to the club membership.

Opening the program, Mrs. George Strecher sang three lovely selections, accompanied by Mrs. Kathryn Nessel Allen.

Following, Lieut. Dorothy White of the U. S. Marine Corps, Pittsburgh, was introduced. She gave a brief talk telling of the opportunities and privileges of belonging to the Marines.

Hostesses were Miss Sarah Donmore, Miss Theresa Merrilees, Miss Anna Marie Montgomery, Miss Gertrude Chapin, Miss Mary Riffer, Mrs. James McGeorge, and Mrs. M. L. Alley.

NURSES SOCIETY PLANNING DANCE

Members of the Students Society of the New Castle Hospital School of Nursing met in the nurses home, Tuesday evening, and discussed plans for their social activities to be held in the very near future.

On Saturday, November 20, the student nurses will be hostesses at an informal dance to be held at the nurses home, with the cadets from Slippery Rock invited as guests of the evening. Dancing activities will start at 8 o'clock, and will continue until 12 o'clock. The social committee is in charge of arrangements.

On Tuesday, November 23, the Socialists of the School of Nursing are sponsoring a card party, to raise funds for the student nurses. Miss Ann Vranjes is chairman of this evening's entertainment, and in addition to bridge and 500 other games will also be featured.

The next regular meeting for the society will be on December 7.

JAMESON NURSES' DANCE FOR CADETS TONIGHT

"Patriotism and Peace" will be the dual theme that nurses of Jameson Memorial hospital will carry out this evening in decorations for a pre-Armistice Day dance to which naval cadets of Westminster College have been invited. Guests will number between 70 and 80 and will include officers in charge of the cadet contingent. Hours for dancing will be 8:30 to 12 in the nurses home. Miss Nancy Hoffman is chairman in charge of arrangements. An instrumental trio will furnish music.

JUNIOR WOMAN'S CLUB TO BRING F. B. I. MAN

GINSBURG-SKILOWITZ ENGAGEMENT KNOWN

Mrs. Anna Ginsburg, of 408½ Lyndal street, announces the engagement of her daughter, Miss Molly Ginsburg, to David Skilowitz, son of Mr. and Mrs. Abraham Skilowitz, of Carmel, N. J.

The news was made known at an engagement dinner held in Carmel, N. J., this past week end.

No date has been set for the wedding.

Apicelli-Womer

Miss Della Apicelli, daughter of Mr. and Mrs. Angela Apicelli, 1035 Butler avenue, and Merle Womer, son of Mr. and Mrs. Charles Womer, of Cascade boulevard, were united in marriage on November 6 in St. Vitus church. Rev. Fr. Albert M. Inteso officiated.

Given in marriage by her brother, Mike, the bride was attired in a white satin gown and wore a long veil. She carried a prayer book and wore an orchid corsage.

Miss Caroline Apicelli was the maid of honor, and bridesmaids were Edna Womer and Edith Jean Antonio, the latter of Columbus, O. Mike Apicelli was the best man.

Dinner was served later in a tea-room, and following a reception was held in the bride's home. Upon their return from a wedding trip the couple will reside at 1111½ Croton avenue.

Mrs. Womer is employed at the National Paints company and Mr. Womer is affiliated with the Blair Strip Steel company.

Guests Honored

Cpl. and Mrs. Kenneth C. Smith, of Dravosburg, Pa., were week-end guests of his parents, Mr. and Mrs. Paul K. Smith, of English avenue, and while here were honored at a dinner event.

Approximately 30 attended the dinner, the Thanksgiving theme predominating. Games and other pastimes were enjoyed.

Out-of-town guests included Mr. and Mrs. C. W. Martin, of East Liberty, Pa., and Ruth McFay, of Franklin, Pa.

Cpl. Smith is at present stationed at Atlantic City with the Army Air Corps, but Mrs. Smith is residing in Dravosburg. They later returned to their residence.

The Parent Problem

By Garry C. Myers, Ph. D.

SCHOOL LUNCHEON SYSTEM IN DANGER

In the recent epoch-making report of the New York State Legislative Committee on Nutrition, "The Nutrition Front," Chairman Thomas C. Desmond notes the crisis now facing the school lunch program. He writes: "Today the school lunch program which provided hot nourishing noon meals to 6,000,000 school children last year is being menaced." Some schools have not been able to resume their feeding activities this year. Many others have had to cut down greatly on the amount of food served.

Explaining the causes of this crisis, Mr. Desmond points out that the school lunch program which expanded very rapidly up to last June was a "joint federal-local partnership in which Uncle Sam provided WPA labor and surplus foods while local boards of education, civic associations or individuals furnished the equipment and small amounts of additional food."

He reminds us that this program got off on a wrong foot. It was conceived of as a means of disposing of "surplus" agricultural commodities and "surplus" labor and not as a means of supplying a balanced diet to the 9,000,000 children who, according to U. S. Surgeon General Thomas Parran, are suffering from hidden hunger. Now that such "surpluses" have been exhausted and shortages have grown acute, the results are obvious.

Situation Changed
With the WPA abolished and "surplus" foods no longer available, the entire financial burden falls upon the local communities and many localities which need the school lunch program most can least afford to pay for it.

Mr. Desmond further notes that this problem has been intensified by the laws of many states which forbid communities to subsidize the school cafeteria. In addition, many localities that are able and willing to employ their own labor for the cooking and serving of lunches are finding it impossible to secure help, particularly since school boards have never been known for their liberal scale. The OPA has complicated matters further by refusing to allocate special priority to schools in the purchasing of foods.

In contrast to our way, England has during the present war, expanded her school feeding program. England not only gives the school priorities in the purchase of rationed foods, but also aids in providing them special allowances of non-rationed food.

"The current threat to the school lunch programs," warns Dr. Desmond, "comes at a time when so many mothers are working in war plants and are doing well if they can provide an adequate breakfast and dinner for their children."

Five-Point Program

Dr. Desmond recommends a five-point program:

1. The Federal government should contribute substantial sums of money to help support the school lunches.
2. Each state should contribute a share of the funds and supervise the administration of the lunch program.
3. The states should repeal legislation which bans school boards from subsidizing cafeterias.
4. Local communities should pay part of the cost of the lunch program, not by begging contributions from individuals and civic groups, but by regular annual appropriations from boards of education.
5. Schools should be granted by the OPA priorities in the purchase of food, and the FDA should assist in securing special allotments of non-rationed food for the school children.

Such appropriation of public funds for providing balanced diets for school children and educating them in the need of such food warranted by the fact that food is power, that it can help not only to speed the output of tanks, planes, ships for victory, but also to build a strong and healthy citizenry for the days of peace ahead.

Solving Parent Problems
Q. Should you permit children in the family to call each other ugly names during their quarrels?
A. No; nor call anybody else such, when you are present.

LOOKING AT LIFE

By ERICH BRANDEIS

Did you ever have an experience like this?

There was an awful rainstorm outside.

It awoke me. I looked at the clock. Two A. M.

It was pitch dark, the wind was howling, the rain beating against the windows.

I couldn't go back to sleep.

I was all alone.

True enough, my wife was lying in the bed next to mine, but she was asleep, thousands of miles away.

There I lay, thinking with nobody to keep me company but myself.

A great fear befell me. All the tinsel, the glamour, the false faces of the day—gone.

What had I made of my life?

What would tomorrow bring?

What had I done to establish security for old age?

How long would my job last?

What did my wife, my friends, my boss really think of me?

Was I just trying to fool the world?

Was I really such a big guy as I tried to make people think I am?

Gosh, what an experience.

I felt so fearsome, so unsure, so humble, so absolutely insignificant.

Then, fortunately, I fell back to sleep, but when I woke up this morning I felt as if someone had pulled me through a wringer.

And when I got to my office and back into the swing of daily life, I was soon my usual cocksure self again, and since the sun was out I whistled "Oh, What a Beautiful Morning."

I bet you know just how I felt. You must have gone through that same all-alone-in-the-night ordeal some time or other.

You see, all human beings are haunted by fear.

Life is a constant fight with fear with worries and doubt.

Life is strong overcome it, but even they succumb to it occasionally.

And I wonder whether fear isn't a rather wholesome check, reminding us that we wouldn't become too sure of ourselves and too conceited without a modicum of it.

Powerful as we may be, successful and wealthy, we all know that there is a greater power that guides us and determines our destiny.

Therefore, a little night session with yourself every now and then may be a wholesome sedative when things have gone too much your way.

Try to meet yourself some night at 2 A. M.

You'll be surprised how much you'll learn about yourself.

ABOUT MARRIAGE
This marriage game by two is played.

And one the man, and one the maid.

Nor can it quite successful be. When it is entered in by three.

And endless are the woes which pour.

On marriages arranged by four.

Both maid and maid are doomed to lose.

With mates which either parents choose.

The mother of the boy can see. No girl, however fair she be.

Or gracious, talented or trim. Entirely good enough for him.

Were she allowed to have her way. Her boy a bachelor would stay.

But so the course of marriage runs. The daughters all must marry sons.

The mother of the girl would wait. To find a more superior mate.

She's sure the city's leading son. After her lovely child will run.

And cannot understand at all. Why she for any boy should fall.

And marry journalist or clerk. Who for his living has to work.

If thus the marriage game were played.

And children parents all obeyed.

If mothers had the power of choice.

And fathers were allowed a voice.

Poor lads, with fortune far ahead.

Would seldom find a girl to wed.

To rich men's sons would go the wives.

To comfort, bliss and cheer their lives.

SOY BEAN FLOUR
Soy bean flour contains more protein and fat than beef or pork or Griddle cakes with soy bean flour in them serve the same purpose as cakes and sausage.

Experts have worked out recipes which regulate the amount of soy bean flour to put in the cake batter. The cakes taste good. They seem just the same as ordinary griddle cakes.

The soy bean flour substitutes for meat and does it very well.

It supplies much larger amounts of protein, fat, lime, phosphorus and iron and copper than meat does in equal parts.

It is not as rich in vitamins. These should be provided in milk, cheese and vegetables to balance the diet.

Press Conferences Subject Of Open Letter

Helen Essary Discusses The Matter Openly

Asks President For More Consideration Now

By HELEN ESSARY

WASHINGTON, Nov. 10.—A personal letter to the President of the United States.

My Dear Mr. President:

There's a little something I want to say to you about your news conferences. You've probably seen them mentioned in the papers before. But this is a new angle on an old story.

Don't you think you could make them a little more pleasant than they are now? More like the news conferences held at the British embassy by the British Ambassador Lord Halifax?

You've probably heard all about Lord Halifax's conference. I shouldn't be surprised if you knew what it would be like before it happened. In case you missed some of the details, I hereby put them down for your edification.

The British ambassador did his conference in an atmosphere of soft answers, chrysanthemums, tea, Scotchies and sodas, chicken sandwiches, chinzy chairs and cream cakes. I mention especially the soft answers. They were never to turn away lend-lease and post-war air-base-control wrath. I must admit they did their job beautifully.

You don't go in for soft words at your press conferences, Mr. President. Not too often. You are more likely to be—let me see—what is the word? Well, let me see—what is the word? I suppose this attitude of yours in the middle of a war is indicative of the audacity of our young nation.

When we have been on the map a few hundred years longer we, too, may be smooth in the English way.

Your news conferences are not as easy on the press as you might think. First, we have to stand in the anteroom, jammed in a sardine row waiting—heaven knows how long—for you to notice that it's 4 p. m. on Tuesday or 11 a. m. on Friday.

Lord Halifax got to his conference 15 minutes ahead of time. Nice change, if I may say so.

When your "come ahead" signal is finally given, we find ourselves being rushed and rushed like a football squad—trying to get ahead without being tripped on. We hold our identification passes high as we sail up our oval study and up to the baggage of chairs which the Secret Service insists must be kept before your desk at such times.

There you sit facing the crowd with your president's flag behind you. You are generally reading a letter or a treatise of some sort and pretending that running the world is a casual sort of business. Beside you is the usual vase of flowers. Behind you those desk knickknacks—donkeys, paper weights and the like. Gifts from loving friends and public.

At your right and our left in a neat row, sit members of the "Cloak Room Cabinet"—Lowell Mellett, Jim Barnes, Laughlin Currie or maybe Elmer Davis. Elmer always looks as if he wishes he were sitting against the press instead of being against it. Nice Marvin McIntyre is generally present. So is Steve Early, half sitting on a table. (Steve gets to look more like you every day.)

Behind you are two stalwart Secret Service men. The press keeps coming. Then someone calls "All in." The conference begins.

It's always awfully hot in the conference room. Since you have gone in for lectures on journalism and other extraneous matters the I expect somebody to faint at each conference. Nobody ever does. It's probably your inspiring personality that keeps us on our toes.

As I said before, at the British ambassador's press conference things were quite different. The embassy, as you know, is a mighty swanky place. After we had trod its deep plush carpeted across its polished mahogany floors, glanced at several maisties on its walls and been directed this way by a first footman

and that way by a second footman, we had acquired a useful respect for the trappings of empire.

The atmosphere in the ballroom where the conference was held was comforting to flesh and spirit. Black mirrors reflected, hauntingly, unlighted crystal chandeliers and bowls of yellow and rust chrysanthemums and autumn leaves. The chinzy covered chairs were deep and relaxing. Gold screens caught the late afternoon sun. It was sort of dim and cozy in the big room with now and then a flash of match flame as a cigarette was lighted.

Lord Halifax, whom I admire as a man of integrity and ability, did not feel that we must keep our eyes on the post-war plans of the British commonwealth, talked easily, confidently, purposefully. You know that although it was not yet the moment to go in for hysterical joy, victory was well in the Allied pocket. It was after the talk that the moment for tea and things arrived.

I really don't believe, Mr. President, that you could serve tea and things at your conferences. Not India tea. Somebody would say we were adding Mahatma Gandhi to our troubles. Nor China tea. That would seem too Chiang Kai-shekish. And certainly not highballs. Think how much fun the press, especially my own press, and the 100 million tax-

UNFETTERED

Conclusion by James Caesar Petrillo, dictator of the Musicians Union, of contracts with four additional recording companies which require them to pay a royalty of three per cent, nominally to the Union's unemployment fund, makes Petrillo master of a new empire. It is estimated unofficially that the royalty will bring Petrillo a revenue of four to five million dollars a year.

The revenue is exempt from income tax since the Union pays none. Petrillo's assertion that he was not interested in the money but in the principle may be believed by those who wish to.

The setup makes Petrillo one of the most powerful individuals in the United States. Some corporation heads have vaster sums, but they are accountable to stockholders and public authorities. Petrillo may do as he likes, since the constitution of his Union gives him power to alter any of its provisions, or suspend it at will. He need not even consult a board of directors. How long Congress will stand for the building up of such powerful despots in a country supposed to be a Republic, remains to be seen.

Just how long is Congress going to permit the gangster leaders of the Labor Union to continue to oppress their respective organizations in RESTRANT OF TRADE? How long will these organizations be permitted to exist without any accounting for receipts and expenditures to the Federal Government? Is it not about time that they be required to incorporate, make returns to the Treasury Department and pay taxes like any other corporation?

Law Established U. S. Marines 168 Years Ago

By CAPT. JOHN H. CRAIG

(Written Especially for International News Service)

When Continental Congress, sitting in Philadelphia 168 years ago today passed a law authorizing establishment of two battalions of Marines for the new Continental navy, it started a fighting corps that was probably to have more influence on the development of war than any other organization of its size in history.

There had been other marines in the rebellious colonies before this time, but they had been recruited by the various states. The two battalions authorized November 10, 1775, were the first that belonged to the whole of the infant American nation, and the United States Marine Corps has recognized them as the lineal ancestors and celebrated its birthday ever since on the anniversary of the passing of the act.

Although John Adams and the Continental Congress that urged their establishment hadn't the slightest idea of the distinguished part the organization they were founding was to play in history, the two battalions of marines then created started right in at their specialty of applying intelligence and ingenuity to warfare.

Although the record of the Marine Corps for bravery and discipline has been of the best, it is really their unequalled resourcefulness, ingenuity and adaptability that marines have won their greatest renown in the military profession.

The ink was hardly dry on the act authorizing their establishment when the marines of the first two Continental battalions started cracking precedents. Previously duties of marines had been limited to keeping order among the crews of warships. But Captain Samuel

Nicholas, the commanding officer of the new marine organization and one of his friends a then unknown naval officer named John P. A. Jones had an idea that they could find a job for their men that would be even more important than patrolling the seas.

They figured out on the spot that the world's first commando raid was the first amphibious stroke in modern war, combined.

It happened in January, 1776, at New Providence, in the Bahay where the British had a huge store of cannon, munitions and supplies. An American fleet under Commodore Essek Hopkins put in by surprise. The marines stained their faces like red Indians by way of camouflage. They even practiced systematic mayhem to be used to destroy their foes silently, as commando troops practice jiu-jitsu today.

The raid, which consisted of a swift night attack, followed by a daylight drive, was a complete success. The astounded garrisons surrendered without resistance. Washington's army gained half a dozen shiploads of supplies, and the world's first commando-type raid had proved a success.

When iron ships and the modern age came in, marines were the first to concentrate on getting on ships quickly and getting off them under fire. In 1880 they astonished the military world by loading a battalion with all supplies on a shipboard in 14 hours. By 1922 they were experimenting with amphibious tanks and modern-type landing boats, another of the things they saw first.

Statements and opinions herein are private to the writer and are not to be construed as reflecting the views of the navy department.

BY AIR FERRY TO EUROPE

Almost daily a fleet of airplanes leaves this country or Canada, eastward bound across the Atlantic ocean. Large numbers of bombers and fighters are delivered to the battlefronts over there under their own power. Big transports fly passengers and freight to Europe and Africa. There is a lesser but considerable traffic coming the other way.

Only a few years ago the Atlantic crossing was a perilous passage. Now it must be made under the added hazards of war. Yet the British air ministry has reported that within the year ending September 30 loss of aircraft on the Atlantic ocean routes was less than one-half of one per cent. It may be assumed, moreover, that the crews and passengers of some planes lost were rescued.

There are no figures given of the number of planes making the trans-Atlantic trip, and none is likely to be released until the war ends. But behind the necessary secrecy lies undoubtedly a dramatic story. One notable fact, of no comfort to our Axis enemies, is that airways to the Old World are out of their reach, and have become immensely valuable to the Allies.

NEW MEDALS FOR FOOT SOLDIERS

With all the emphasis on aerial and mechanized warfare in this global conflict the aphorism describing the infantry as the "queen of battles" has become true again. Inevitably the foot soldier has to go in and win his own fights.

Establishment of two new infantry medals—one for "satisfactory" service in combat and the other for meritorious records in battle—is a needed and proper recognition of the fact. Infantrymen who handle themselves coolly, bravely and efficiently when face to face with the enemy may not necessarily so distinguish themselves as to rate one of the higher awards for heroism or distinguished service, which call for actions beyond the normal call of duty.

But men who acceptably pass through the grueling ordeals of fighting at close quarters, and do their hard job well, are deserving of the recognition of their quality as fighters. This new medals are designed to afford.

Senator Asserts Little Danger Of Railroad Strike

Declares Government Would Take Over Railroads To Prevent Strike

By PHILLIPS J. PECK
(U. S. Staff Correspondent)
WASHINGTON, Nov. 10.—Sen. Edwin C. Johnson (D. Colo.), said Tuesday there was little danger of a national railroad strike, asserting that the government would step in and take over the carriers to prevent such an occurrence.

Johnson made his prediction at a senate subcommittee hearing on an appeal of the 14 non-operating railroad unions for congress to support their wage demands.

"I don't think there's much danger of a strike," the Senator said. "Before that fateful hour, the railroads would be taken over and operated by the government."

Johnson, chairman of the committee, added that he was very much opposed to government seizure of the railroads and expressed the hope that a solution to the wage controversy could be found. George M. Harrison, president of the railway clerk's union, who asked that congress over-ride the president and his aides in turning down the workers' demands for an eight cent an hour pay increase, said the unions also were opposed to government operation.

GOLDEN WEDDING OF MERCER CO. COUPLE

MERCER, Nov. 10.—Mr. and Mrs. Franklin P. Minner, East Lackawanna township, observed their golden wedding anniversary on Tuesday. Their children entertained at a family dinner at noon and tonight the couple will receive friends at open house from 7 to 10 o'clock.

Mrs. Minner, the former Jennie Bestwick, and Mr. Minner were married in Mercer, November 9, 1893, and have the following children living: Mrs. S. C. Morris, Pittsburgh; Charles P. of near Sharon; Paul, at home; and Edward M. Mercer.

Mr. and Mrs. Minner have spent most of their married life on the farm where they now reside. Mr. Minner served as county commissioner and auditor for four years each, during which time they made their home in Mercer.

OCD NOTES

Activities Of OCD Workers Are Outlined Here

Post 8-1 will meet at 8 o'clock tonight in the post rooms, St. Vitas church. Charles Santello has prepared an excellent program. In addition to members of the post, those from any post in the city will be welcome.

City Office of Civilian Defense members will participate in the Armistice parade at 7:15 p. m. Thursday. They should wear their helmet and arm band. Group leaders have received invitations to have their groups in the line of march. If any member does not know what he is to do he should immediately contact his group leader to learn all particulars, especially the group to which he is assigned and where he is to join that group in Pearson street.

Biddle Opposes Comptroller's Plan

Doesn't Want To Be 'Boss' In Settlement Of Uncompleted War Contracts

By WILLIAM S. NEAL
(U. S. Staff Correspondent)
WASHINGTON, Nov. 10.—Attorney General Francis Biddle opposed the recommendation of Comptroller General Lindsay Warren today that he be made "the boss" in settlement of uncompleted war contracts.

Testifying before a senate military affairs subcommittee, Biddle approved the method now in use of permitting the army, navy and other procurement agencies to make the settlement.

"In my opinion each procuring agency should negotiate the termination of its own contracts," said Biddle. "In the very nature of things it is the branch of the government which is most familiar with the problems incident to the contract involved."

Biddle urged setting up of a civilian agency to make loans to war contractors to help speedily recon-vert to civilian business in advance of final settlement on uncompleted war contracts.

He also opposed suggestions that the government make settlements with subcontractors as well as prime contractors. Such a policy, he said, would put the government virtually in a position of becoming a party to disputes between the prime and subcontractors.

Settlement of uncompleted contracts, he said, should be extended to contractors supplying civilian goods to the government which are bought because of the war.

Meanwhile Sen. Walter F. George (D. Ga.), chairman of the senate post-war committee, said there is danger of huge quantities of surplus war materials being disposed of as junk under present law.

George planned to press for a law stating a general congressional policy on disposing of war surpluses, even though President Roosevelt named Bernard M. Baruch to head up a government committee on the question.

Consider Plan For Rationing Liquor Sales

HARRISBURG, Nov. 10.—(INS)—War-time ration books issued by the Office of Price Administration were being considered today by the State Liquor Control Board as an effective method of checking purchases during the proposed three-week "trial period" of liquor rationing which may start November 21.

The board, it was learned, has asked the federal agency for permission to use the covers of the books on which to stamp whatever quota is selected. It was emphasized, however, that ration stamps will not be required to buy liquor. Purchases will be noted by the punching of a distinctive hole in the quota stamp and when the limit has been reached the ration book owner will be ineligible for more whiskey.

Under the proposed rationing plan, which both Gov. Edward Martin and Board Chairman Fred T. Gelder admit is inevitable, only whiskey sales will be restricted. The tentative plan calls for unlimited sales of rum, gin, brandy and wines wherever the items are available.

Governor Martin admitted the board had been considering rationing whiskey stocks in recent months to offset the wartime scarcity and said the plan "would become effective before the holidays."

"It's going to be tried out," the governor declared. "No one can tell how well it's going to work out, but the public wants rationing."

He added that the Liquor Control Board did not plan to "freeze" sales in the 578 state stores before inaugurating rationing. Of the 17 states with monopoly systems, only Pennsylvania and Wyoming have not instituted emergency rationing.

Coffee, when it was first introduced into Europe, was supposed to be a remedy that was effective against colds, hysteria and tooth-ache.

Throw away a tenth of all the food I buy?

NOT ON YOUR LIFE!

You don't believe you're wasting almost one tenth of the food you buy? Well, maybe you aren't.

Most American women are doing everything they can think of to make food go farther these days.

But you have it—straight from your government—that American families waste enough food annually to feed the larger part of our armed forces at home and abroad. That waste is mostly habit. We've all had so much, for so many years, that we waste without even realizing it.

We've got to change that habit. Food means too much in wartime.

Think for a minute of the foods you buy under the Del Monte label alone. It took thousands of farmers months to grow them. It took thousands of workers to pack them. It takes hundreds of thousands of grocers to make them available to housewives all over the country.

And that's just Del Monte, remember. Every food you buy—bread, potatoes, meat, sugar—represents work and time and materials that are far too precious to waste.

That's why we've got to stop waste before it stops us. And it's got to be done right in the kitchens of America. Think it over. Is there something else you can do, or do without, or do better, to cut waste in your kitchen? Take a few minutes to read the questions below. Then decide for yourself.

Check yourself against these 9 points to be sure all your food "Fights for Freedom"

SAVE TIN CANS. The need is more urgent than ever before!

1. Do you plan your buying ahead?

Haphazard shopping's out—particularly for perishables. You'll avoid having so much left over your family won't eat it, or so little you can't use it.

2. Do you buy only what you need?

You know how much your family eats—why buy more? And "point-shop" early in the ration period, for best chances of finding foods or brands your family will finish up.

3. Do you buy brands you know?

A wise precaution against waste any time. For instance, with both points and cash at stake, it is doubly wise to check the Del Monte varieties your grocer has.

4. Do you store foods correctly?

Prompt and proper home storage helps prevent spoilage and vitamin loss. Be sure you know the right place and the right temperature for storage of each type of food you buy.

5. Do you serve healthful meals?

Plan to serve the "Basic Seven" food groups every day. In groups 1, 2 and 3 there are many Del Monte Foods. Those your grocer has can make meal planning easier.

6. Do you prepare foods carefully?

Be a pot-watcher! Burned food is wasted. Save health values by quick-cooking fresh vegetables, slow-roasting meats. Merely heat (don't boil) Del Monte Vegetables.

7. Do you "lick the platter clean"?

This is no time for your eyes to be bigger than your appetite. And to urge second helpings on other folks when they're not hungry isn't hospitality, it's waste!

8. Do you use up all leftovers?

A few Del Monte Peaches, for instance, saved out today can brighten a pudding tomorrow. Del Monte's genuine goodness will bear a world of "working over."

9. Do you turn in your waste fats?

Maybe you think what you have won't help—yet a tablespoon saved every day for a month makes enough nitroglycerine for a hand grenade. Turn them in to your butcher.

BELL REPAIRED

After being silent for some weeks the bell in the court house tower will ring again. Custodian Clifford James and his associates have put the huge 1000 pound weight which fell some time ago, back in place and the bell now goes back into active service. When the weight fell it went through the floor to the corridor below. Fortunately no one was in the corridor at the time.

SAFEGUARD BONDS

As an added safeguard to some \$178,000 worth of war bonds which the county commissioners have purchased against bonds that come due

in the next few years, a safe deposit box in a bank will be rented. The bonds which were purchased in recent bond drives have been in the safe of the county treasurer.

In order to be sure that the bonds are absolutely safe the safe deposit box will be in the name of the County Commissioners, the County Treasurer and the County Controller. They cannot be taken from the box at any time without one commissioner, the county treasurer and the county controller being present.

FOOTBALL ON TAP

These are days when you can hear a lot of good football stories back in the office of Deputy Ben Ciccone. Acting Sheriff M. M. Ingham and Deputy Ciccone both are former big time football players and the stories they tell are the stories of what happens in the pileups which the spectators seldom get to hear.

Acting Sheriff Ingham was captain of Washington and Jefferson when that college played the best Hearing Ingham tell of some of the episodes in games against Yale, the

As for Ciccone, some of the funniest stories we ever heard are ones he tells about games in which he was pitted against such stars as Mel Hein, Hoot Gibson, Ken Strong and others of that stripe.

The funniest one is the time Ciccone played the backfield for the Pirates against the Giants. That was Benny's one and only time he ever tried lugging the mail.

ASKS DAMAGES FOR COWS

MERCER, Pa., Nov. 10.—Leota Means, executrix of the estate of Elizabeth Tribby, late of Mill creek township, filed suit yesterday to recover \$600 from Harry Neil Britton and Paul Repert, Meadville, claiming damages for the death of three Jersey cows which Britton, driving for Repert, allegedly struck with a truck November 20, 1942. The accident happened near the Tribby farm on Route 78 where the highway intersects the farm.

Some State Forest Roads To Be Closed

HARRISBURG, Nov. 10.—No roads in the Pennsylvania State Forests will be closed during the fall and winter season, except those deemed necessary to the best interests of the general public, Deputy Secretary W. E. Montgomery of the Department of Forests and Waters, announced today.

The purpose for which the State Forest roads were constructed are such that the Department would not have been justified in expending the large sums needed to build roads which could be used at all seasons of the year and under all kinds of weather conditions. The use of these roads at certain times would render them impassable and create a maintenance burden beyond the financial ability of the Department.

The District Foresters in charge

of the various State Forests will decide which roads will be closed and the period during which public use of them will be prohibited. The State Forests are traversed by

more than 3,000 miles of roads and 4,000 miles of trails.

COLD FACTS ABOUT YOUR REFRIGERATOR

HERE'S HOW

Defrost regularly—excess frost makes the motor run harder and longer.

Never place hot food in refrigerator—that makes it run more than necessary.

Make sure the door fits snugly, keeping cold air inside.

Oil moving parts of motor every 6 months if your refrigerator has open type of mechanism. Treat it with "kid gloves". It must last for the duration.

a most happy note in his statement.

"I regard this hour as at once more hopeful and more stirring than any through which we have passed."

As evidence of his human kindness, he said, "now I regard it as a definite part of the duty and responsibility of this national government to have it set about a vast and practical scheme to make sure that in the years immediately following the war there will be food, work and home for all." Such plans must be made by every government of the United Nations. If peace is to be maintained, this war cannot be followed as was the last by misery, bankruptcy and ruin.

COLD meets defeat! - because this Anti-Freeze holds out against HEAT

\$29.41 is the average price, among popular cars, for a new radiator alone...if you can get one. But even supposing that you could get free repairs on your present radiator after a freeze-up, the manpower shortage still might lay up your car for a week or two—a costly inconvenience.

Same old "scare stuff," do you say? Yet here's what may be new to you: You could easily sacrifice your car to the cold, unless your anti-freeze is able to save itself from the HEAT!

HEAT makes your engine go. HEAT rises after every stop. And days below zero are often fol-

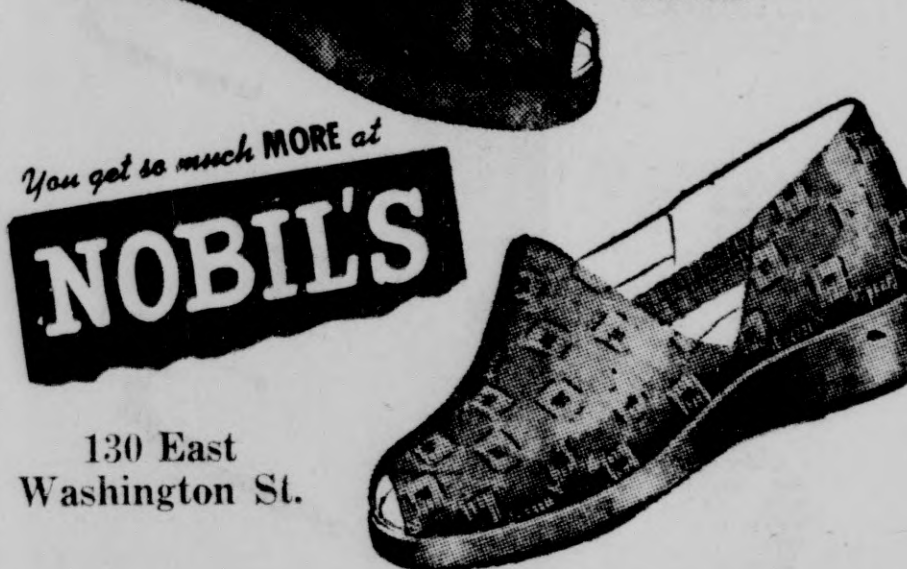

lowed by days above freezing! In Winter car operation, heat is fully as much a factor as cold, and Super Pyro is ready for both. Because it won't be all "gone with the heat" every time, you needn't keep adding a lot for safe passage through a whole string of cold spells.

You pay nowhere near a top price for Super Pyro. And yet how it lasts. So will your cooling system, because this highly heat-safe, cold-safe Super Pyro also protects against dangerous clogging rust. Now—while most dealers still have some—get your Super Pyro.

CHRISTMAS PARTY PLANNED BY CHOIR

Members of the senior choir of the Mahoning Methodist church were entertained at the home of Mr. and Mrs. Herbert Cowley of West Madison avenue, on Monday evening.

Mrs. M. R. Olmstead presided at the business session, when plans were made for a Christmas party to be entertained at the home of Mr. and Mrs. Chester Johnson of 414 West Madison avenue, on December 20.

Rev. and Mrs. Warren A. Bugbee were in charge of the games and the evening's entertainment.

A delicious lunch was served by the hostess who was assisted by her husband.

WOMEN'S SOCIETY MEETS TUESDAY NIGHT

In the social room of the Mahoning Methodist church, members of the Women's Society for Christian Service, met on Tuesday evening, with Mrs. O. C. Mauck, presiding.

Mrs. J. A. Waddell opened the meeting with prayer, and Mrs. Q. E. Davy led the devotional period, with the subject "Strength For Our Task."

After the business session, Miss Alma Wolverton led in the study lesson which consisted in high lights of African government and religious progress.

The society separated into three groups and retired for a social period.

The next meeting will be at the church on December 14.

RELEASE PASTOR FROM WARD CHURCH

Dr. F. W. Guy represented the elders and C. C. Comstock, the congregation of the Mahoningtown Presbyterian church at a meeting of Presbytery at the First Presbyterian Church, on Tuesday evening.

The meeting was called for considering the dissolution of the pastorate of Rev. John Earl Myers, Jr., as pastor of the Mahoningtown church.

Rev. R. M. Tonvill, pastor of the Presbyterian church of Bessemer, was moderator of the meeting.

It was decided to dissolve the relationship between the pastor and congregation of the Mahoningtown Presbyterian church.

Rev. Myers joined the U. S. Service over a year ago, and is now serving as U. S. Army Chaplain, and is stationed at Colorado Springs. Col. Dr. John Orr of Westminster College is serving the church as acting pastor.

TO ORGANIZE CLASS

This evening, a Sunday school workers training class will be organized, after the close of the prayer service at the Mahoningtown Presbyterian church.

SEND CHRISTMAS BOXES

At the home of Mr. and Mrs. George Kutz, of 311 West Madison avenue, the Service Men's committee of the Mahoning Methodist church, met on Monday evening and packed 50 boxes of "goodies". These boxes have been sent to those connected with the church in the Armed Forces, as Christmas gifts of cheer.

WILL PARADE

Members of the St. Margaret's Society will meet at the club rooms, North Liberty street, Thursday evening at 6:30 o'clock, and the group will prepare for the Armistice Day parade.

Refreshments will be served to those taking part in the parade, following the completion of the parade, president, Bart Lombardo announced today.

SACRED HEARTS SOCIETY

There will be a meeting of the Sacred Heart Society of St. Lucy's church, Thursday evening at 6:30 o'clock, with Vice President Mrs. Madeline Prescario in charge. The meeting will be in the church auditorium.

ROSES BLOOMING

It is reported that there are several "American Beauty" roses blooming in the yard of Mr. and Mrs. Herbert Mullen of North Liberty street.

YOUTH FELLOWSHIP

At the Mahoning Methodist church, members of the Youth Fellowship cabinet will meet this evening at 9 o'clock.

Achievement Week For 4-H Clubs Here

Lawrence County Members
Look Back On Year Of
Splendid Accomplishment

Four-H Club members of Lawrence County are joining the one and one-half million members in the United States this week in celebrating National 4-H Achievement Week, according to Miss Josephine Simpson and Lewis C. Dayton, Extension Representatives, who supervise the work. 4-H Club members have reason to be proud of their accomplishments.

In Lawrence County 4-H Home Economics, club members remade and repaired 2,233 garments of clothing this year. This past summer 4-H girls made 124 new outfits, 43 girls reported helping with the family Victory Garden, while 32 assisted with care of the poultry flock. 3,423 jars of food were canned by 4-H girls under family guidance.

Thirty-seven of the rural 4-H girls in this County aided with planting and harvesting of crops this year and with milking. The Victory Service activities that 4-H girls participated in were Care of Children, Airplane spotting, Welfare organization activities, salvage collection, purchase of War Stamps for treatment, had recovered sufficiently to return to her home.

Mike Masso, of R. D. 7, Mahoningtown, has returned to his home from the New Castle hospital.

Representatives Of 44 Nations Gather At Atlantic City To Plan Rehabilitation

MEETINGS TO LAST FOR SEVERAL WEEKS

By PHILIP G. REED
(U.S.S. Staff Correspondent)

ATLANTIC CITY, N. J., Nov. 10.—Nearly 300 representatives of all 44 United Nations gathered today to set up machinery for feeding and rehabilitating war-torn Europe and Asia.

President Roosevelt launched the group on its task at Washington yesterday with the declaration that if carried to success, the program would shorten the war and go far toward establishing a lasting peace. More than 100 newspaper reporters, photographers and radio broadcasters have been assigned to cover all phases of the meetings, which are expected to last from three to four weeks.

The Claridge hotel has been taken over in its entirety for the general conferences and committee meetings and to house the delegates and their staffs.

First Session

The first plenary session is scheduled for 4 p. m. today, when Assistant Secretary of State Dean Acheson will deliver an address of welcome.

Acheson is temporary chairman of the gathering. He has been nominated as the United States representative of the 44-nation general council, which will determine matters of policy for the United Nations Relief and Rehabilitation Administration.

The meeting will not really roll up its sleeves until Thursday when the director general of the UNRRA is elected. It is expected that the job will go to Herbert H. Lehman, former governor of New York.

The director general will also preside at the meetings of the inner central committee composed of representatives from the big four powers—Russia, China, the United States and Great Britain.

Following his election the general council will designate committees to study and report on a host of problems. Most important to be set up will be those charged with dealing with the acquisition of materials and their distribution.

The general council at Atlantic City will have full power to determine permanent policy in regard to news coverage of the meeting and it was considered possible that the tentative plans might be relaxed somewhat.

Trial Of Count Near Conclusion

NASSAU, Bahamas, Nov. 10.—(INS)—With the life of Count Alfred De Marigny in the balance, opposing counsel today began summations in the trial of the dapper young French nobleman who is charged with slaying his wealthy father-in-law.

The blue-ribbon all-male jury of Bahamas supreme court is expected to get the case tomorrow, but first Chief Defense Attorney Godfrey Higgs will be followed in the summing up by Attorney General Eric Hallinan. Then Chief Justice Sir Oscar Daly must issue his instructions to the jury.

Final defense witness—and the count's legal staff brought 17 to the witness box—was pretty 19-year-old Nancy Oakes De Marigny, wife of the defendant and daughter of Sir Harry Oakes, whose bludgeoned and burned body was found in a flame-seared bedroom July 8.

New Yorkers Face Produce Shortage

NEW YORK, Nov. 10.—(INS)—More than seven million New Yorkers were threatened with a fruit and vegetable famine today following institution of a city-wide boycott by produce buyers.

Voted by more than 600 retailers, wholesalers and jobbers following a three-hour early morning meeting, the boycott was instituted as a protest against policy of shippers and commission merchants who, it is charged, force the buyers to purchase unwanted commodities in order to get produce they require.

Marketing officials, estimating that the boycott was 75 percent effective even a few hours after it was called, said that the buying strike would cripple the fruit and vegetable market within 24 hours.

There will always be a forgotten man so long as forgotten men forget.

It's hard to tell you what home—an American home—means to a fellow who's alone in a strange land. I think about it all the time, especially when we're out on a bombing mission. In the uncertainty and darkness it's the thought of home alone that makes what I try to do have any meaning. Start Campaign With Special Program In Neshannock Avenue Rooms Last Night

Perry S. Gaston Post, American Legion, got its 1944 membership campaign under way Tuesday evening, with a splendid program in their rooms on Neshannock avenue.

Senior Vice Commander Lee R. Hanna, chairman of the membership drive, stated that the post expects to exceed its 1943 membership, which was the largest in some years, and for which the post received a citation from national headquarters for exceeding its previous year's membership. A good start was made on next year's goal

with the enrollment of a large number of new members.

The film, "The American Legion," showing the work of the Legion down through the years, with shots of the various conventions was shown at the meeting, with Clarence M. England operating the projector.

The post voted to sponsor the Headquarters Band for the Fourth Regiment, Pennsylvania Defense Corps, and will loan the band the instruments it needs to get going. Joe F. Repligle, Harry Bollinger and R. Harold Blewitt, were named by Commander Clare B. Book as a committee to represent the post in this connection.

RESCUE LEAGUE SUED

PITTSBURGH, Nov. 10.—(INS)—The animal rescue league was sued for \$2,500 today by a Pittsburgh attorney on charges of illegally destroying his pet dog.

Jacob Shulgold alleged the league had put the dog to death after it was picked up as a stray without notifying him. He asserted the pet was valuable, as it was a splendid watch dog, was able to perform tricks and extraordinary acrobatics. He declared he had spent many hours of constant training to develop the animal.

Winter Defense Line In Italy Is Fixed By Nazis

German Prisoners Give Impressions That Orders Are To Hold That Line

By PIERRE J. HUSS
STAFF CORRESPONDENT
ALGIERS, Nov. 10.—The German army in Italy has fixed a winter line and the indications based on unanimous reports from German prisoners captured in recent days are that Berlin orders are to hold the Allied armies there from all further progress toward Rome.

These German prisoners almost without exception confirm that the Wehrmacht has constructed and manned positions in the mountains and valleys behind the Garigliani river on the west coast with the center based on the formidable Apennine chain and the left wing running through the peaks and canyons of the heights overlooking the north bank of the Sangro river.

From available reports and on the basis of information from German prisoners, the "winter line" was built with the customary German conception of fortified strongholds in the most suitable terrain. In other words like the Grench channel defense zones and the Seigfried line itself the German plan of defense in Italy is an elastic series of "wave on wave" key points calculated to "lead" us into exhaustion as every mile must be painstakingly fought for through one stronghold point after another.

It would seem possible that the German prisoners are not unanimous in their convictions that this winter line is impenetrable and capable of keeping the Allies out of Rome throughout the winter.

Tough as the battle for Rome will be it is recalled that the enemy troops wilted and yielded formidable strong points under combined Allied land air and sea onslaughts in the past.

B The same token it is not con-

sidered impossible that the German flanks of the new winter line can be crushed or the center crashed through determined assaults either event of which would cause its collapse.

According to German prisoners, the absence of the Luftwaffe in Italian skies has considerably disturbed the serenity of the Nazi troops. They believe, however, that winter weather will offset the activity of the Allied air forces and in general favor German defense tactics.

Reveal Identity Of Lookout Rescued By Lieut. Roosevelt

CHARLESTON, S. C., Nov. 10.—(INS)—The heretofore unknown lookout aboard a destroyer in Palermo harbor, Sicily, who was rescued by Lieut. Franklin Roosevelt Jr., when bomb fragments in a German raid blew off the man's leg was identified at the Charleston naval hospital today.

He was identified as 19-year-old Nunzio Cammarata, USN, of Baltimore, Md.

Lieut. Roosevelt, executive officer aboard the destroyer, applied a tourniquet to the lookout's wounds and carried him to sick bay at the height of the aerial assault.

Asked what kind of an officer Lieut. Roosevelt was, Cammarata replied that the young son of the president is "perfect. And he knows how to handle a crew. He's a swell guy."

"When that bomb took off my leg and laid it down beside me up there on the bridge, Lieut. Roosevelt found me."

Cammarata stated he remained conscious after being hit.

"I took off my dungaree shirt and wrapped it around my leg. Lieut. Roosevelt came up to me. I spoke to him. He applied the tourniquet, picked me up and carried me down the ladder. He had a tough time getting me through the wreckage, but finally got me to another ship and laid me on a mess table."

"And that ain't all, mister. Back in the army hospital in Oran, North Africa, Lieut. Roosevelt who had been looking for me, finally caught up with me for a visit. He's a swell guy."

Cammarata revealed that the destroyer, nicknamed "The Mighty May," was attacked about 10 miles off Palermo by 32 German planes and almost pounded to the bottom.

LEESBURG

The Girl Scouts will meet at the church Saturday afternoon at 1:00 p. m.

The annual thank offering of the Women's Missionary Society will be held next Sunday morning at 11 a. m. Rev. William Lloyd will give the address.

The fourteenth anniversary of the building of the church will be held on Sunday, November 21.

Mrs. Harry Simpson is a patient in the Grove City hospital where she underwent an operation.

William Royle, who was a patient in the Grove City hospital suffering with a broken leg, is getting along nicely.

The many friends of Mrs. Bill Simons of Volant, formerly of Leesburg, will be glad to learn that she is getting along nicely after having her appendix removed at the Grove City hospital.

Mrs. Lawrence Wardman is suffering at her home with a badly infected hand.

The Young People's Council of District 14 met at the church Friday evening and enjoyed the regular monthly party. The evening was spent in a social way. At a late hour lunch was served.

Pfc. Orville Gill, of Camp Lijune, North Carolina, is spending his furlough with his parents, Mr. and Mrs. Tom Gill.

Mrs. Orville Rudolph and sons spent an evening with her parents, Mr. and Mrs. Bill Royle at Grove City.

Mrs. Cecil Burke, of Slippery Rock, has returned to her home after spending several days with her parents, Mr. and Mrs. Andy Brophy. Christina Ryhal spent the week end with her sister, Mrs. Aletha Foster of Blacktown.

Quite a number of persons from Leesburg attended the funeral services of Mrs. George Milan which were held at her home Saturday.

Mr. and Mrs. Andy Stone were Sunday dinner guests of Mr. and Mrs. Joe Geiger at Jackson Center.

Mrs. Roy Orr and Leona Hedrick who attended the state Sunday School convention at Huntington gave a report of the convention at Nazareth and Blacktown churches Sunday morning.

SUNOCO

DYNAFUEL

A SUPER AVIATION FUEL CONCENTRATE

50% more powerful than U. S. standard 100-octane test fuel

One reason for Allied mastery of the skies is the superiority of the fighting fuel that powers our planes.

Millions of gallons are being made every week by Sunoco. This huge quantity and the high quality of our output are made possible largely by Dynafuel, an exclusive development of Sunoco engineers and chemists.

50% More Power than U. S. Standard 100-Octane Test Fuel

Sunoco Dynafuel is more than a gasoline; it's a super aviation fuel concentrate which tests 50% higher in power than U. S. standard 100-octane test fuel! That is because Dynafuel contains a larger percentage of certain ingredients which have extraordinary power-producing qualities.

Increases Quality and Quantity

Dynafuel is never used undiluted, but is blended with gasolines produced by other methods, in order to step up their quality.

The Dynafuel Process also increases quantity—because it utilizes even those portions of the crude which formerly went only into low-grade fuels.

A Triumph of Private Initiative

Dynafuel was developed by Sunoco without government aid or subsidy. The company risked its own capital, its own credit, in order to pay the huge costs of building the plants for its production.

It is through such free play of private initiative that all American progress has been achieved.

Opens Up a New Future for Motorists

Dynafuel is not now available for civilians. Every drop is reserved for military needs. But just imagine what this super fuel will mean to future motor car development! The same processes and equipment which have contributed so importantly to the war may well revolutionize post-war travel, both on the highways and skyways of America.

SEEK ARMY RULE FOR CAMP OF JAPS

Probers Urge That Army Re-
main In Control Of Jap
Segregation Center

By ROBERT C. WEAKLEY
(N. S. Staff Correspondent)

TULE LAKE, Cal., Nov. 10.—(INS)—Lengths to which 16,000 disloyal Japanese went to create their own Little-Pearl-Harbor on the mainland grew more astonishing today as further disclosures were poured out for investigators of the Tule Lake segregation center.

Former and present war relocation authority employees, after relating hitherto undisclosed incidents of violence at the camp, prompted an amazed congressman to accuse WRA officials of having "become the true situation" for fear that once the army took over they would lose their jobs.

Rep. Clair Engle, Democrat of California, who has been sitting in at hearings conducted by a California state senate investigating committee, said WRA officials were trying to "perpetuate themselves in office."

Need Action
"But beyond this," Engle told International News Service, "is the great need for concrete action which will remove once and for all the threat that disturbances such as those which occurred last week may recur."

Engle advocated permanent army control of Tule Lake's malcontent Japs in concentration camps and the disenfranchisement of all American born Japs who have professed loyalty to Japan. He said he was certain congress "will see the wisdom of these two aims," which he described as the "California viewpoint."

The investigating committee adjourned hearings late last night after having heard more than 39 witnesses who related almost incredible incidents of strikes, sabotage and violence at the center before the army was called in Thursday night to restore order.

A resolution adopted by the committee, which was forwarded to President Roosevelt and the California delegation in congress, said: "From our findings we are unanimously in favor of the U. S. Army remaining in control of the Tule Lake camp. We will make further recommendations as soon as we have had opportunity to study the testimony taken by us."

FEAR BREAK IN PRICE CONTROL

By WILLIAM S. NEAL
(N. S. Staff Correspondent)

WASHINGTON, Nov. 10.—Congressional observers predicted a break today in the administration's hold-the-line price policy with a consequent boost in wages and a certain increase in the cost of living.

Leaders of the congressional "farm bloc" themselves accused of seeking to break down the year-old stabilization program—said that an increase in the wage scale automatically boosts food price ceilings. Speculation that the administration is hard pressed to hold the anti-inflation line reached new heights when President Roosevelt was asked at his news conference if there was any move afoot to scrap the "Little Steel" formula, which forbids general wage increases of more than 15 per cent above the level of January 1, 1941.

Mr. Roosevelt replied that the whole question of the cost of living was being studied in relation to present average incomes to determine if there is any need for changing the formula. Labor contends the cost of living has risen more than 15 per cent.

PENNY SHORTAGE REPORTED ACUTE

NEW YORK, Nov. 10.—(INS)—Wall street banks reported today that the shortage of pennies—both copper and zinc coated steel—has now reached 500,000 in New York alone, forcing the Federal Reserve bank to have allotments to member banks.

Seven-cent hot dogs, 11-cent cigars and fractional increases in prices of many other commodities are blamed in part for the shortage.

EVERY THE WAR HAS
ITS COMPENSATIONS!

During the past week, Mr. and Mrs. E. C. Gatrall of 408 Hillcrest

avenue, were delightfully surprised by a visit from their nephew,

Bombardier Sgt. James M. Langdon of the New Zealand Royal Air Force.

Sgt. Langdon has been stationed in Edmonton, Alberta, Canada, for the last few months and is on a furlough preparatory to going back to the scene of action.

Neither Sgt. Langdon nor the Gatralls had ever met until this occasion, the former's parents having gone to New Zealand some thirty years ago. Getting news first hand from the other side of the world was indeed enjoyable to the local residents.

This Home-Mixed Cough Relief Is Hard To Beat

Very Easy To Make. No Cooking. Saves Big Money.

No matter what you've been using for coughs due to colds, you'll be the first to admit that this surprising relief, mixed in your own kitchen, can't be surpassed, for real results.

Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking is needed—a child could do it. Or you can use corn syrup or liquid honey, instead of sugar syrup. Then put 2 1/2 ounces of Pinex (ob-

tained from any druggist) into a pint bottle, and add your syrup. This

gives you a full pint of really amazing cough relief—about four times as much for your money. Tastes fine—children love it—and it never spoils.

You can feel this home mixture taking right hold of a cough. It loosens the phlegm, soothes the irritated membranes, and helps clear the air passages. Eases soreness and difficult breathing, and let's you sleep. Once tried, you'll swear by it.

Pinex is a special compound of proven ingredients, in concentrated form, a most reliable soothing agent for throat and bronchial membranes. Just try it, and if not satisfied, your money will be refunded.

Refuse Gas For Trips To South

Persons Going South From
Pittsburgh District Will Not
Get Extra Gas

PITTSBURGH, Nov. 10.—Anyone planning to drive from the Pittsburgh district to a warmer climate for the winter months had best forget it or else make train, plane or bus reservations for the journey, according to an OPA interpretation of essential motoring received here yesterday.

The ruling made by Washington officials stated that "travel" to a more favorable climate for purposes of health is not driving for therapeutic treatment, and therefore does not constitute essential driving, local OPA officials said, explaining the district office and local ration

boards are being besieged with appeals for special rations of gas for trips to Florida and California.

"All the appeals we receive are accompanied by physicians' certificates," OPA Attorney Richard I. Nassau said, "but we have to turn them down."

Most of the appeals also request large allotments of gasoline, the average request for a round-trip to Florida being 300 gallons.

OPA regulations permit special rations for persons to drive for "medical or therapeutic treatment" as long as it does not consist merely of a change of climate and cannot be obtained anywhere between here and Florida or California.

Sink 150 Subs In Six Months

Statement By O. W. I. Reveals 60 Sunk In Past Three Months

SHIP SINKINGS REACH LOW POINT

By EARL MARCKRES
(U. S. Staff Correspondent)

WASHINGTON, Nov. 10.—Sixty German submarines were revealed today to have been sunk in the past three months with the attrition rate of U-boat losses to merchant ship sinkings in October "more satisfactory than in any previous month."

An office of war information statement issued under the joint authority of President Roosevelt and Prime Minister Churchill disclosed that more than 150 Axis submarines have been destroyed in the past six months.

The authoritative British press association estimated that between 700 and 800 Nazi U-boats have been sunk since the beginning of the war.

Mr. Roosevelt told his news conference yesterday that merchant ship tonnage lost in August was the lowest on record, but added that the October ratio of U-boats destroyed and cargo vessels sunk proved to be the best combination month of the war.

The statement also hailed the success of Allied air and naval units in combating new Nazi U-boats weapons and tactics.

The record of the last three months is particularly gratifying because during most of this period fewer U-boats were operating, fewer targets were presented for our air and sea forces," the statement said.

COLD STORAGE

HARRISBURG, Nov. 10.—The value of the principal field and fruit crops harvested in Pennsylvania during 1942 is estimated at \$179,743,000 compared with \$159,828,000 in 1941, an increase of 12 per cent, according to the Federal-State Crop Reporting Service in the State Department of Agriculture.

PLAN TO AID IN TRANSPORTATION OF WASTE FATS NOW

HARRISBURG, Nov. 10.—(INS)—The state defense council eliminated today drawbacks in transporting household waste fats to rendering plants by enlisting the aid of the Railway Express Agency.

State Salvage Chairman Warren R. Roberts explained that the company's agents throughout the state, except in Philadelphia and Pittsburgh, have been instructed to cooperate.

"The purpose is to increase the quantity of fats being delivered to the rendering plants and thus step up the output of glycerin which is urgently needed for war purposes," he said. "All retail meat dealers throughout the state will be requested to cooperate with this plan which removes any transportation obstacles between them and the rendering plants that might have existed before."

Roberts predicted that "this service is expected to boost the total collections of household fats by thousands of pounds each month."

NEARLY 1500 DOGS GIVEN IN STATE FOR ARMY SERVICE

HARRISBURG, Nov. 10.—Nearly 1500 dogs have been donated by Pennsylvanians for

guard duty with the Armed Forces, according to Dr. H. C. Kutz, staff member of the Bureau of Animal Industry in the State Department of Agriculture, who has been actively identified with Dogs for Defense, Inc., since its organization by dog fanciers as a voluntary service more than a year ago.

Dr. Kutz is in charge of placement of dogs in the Harrisburg area, and 41 dogs shipped by him for training two have given their lives in the line of duty.

An induction center for all dogs procured in Pennsylvania is maintained in Montgomery County and additional dogs of suitable types, size and weight are desired. According to the most recent information received by Dr. Kutz, only the following breeds of dogs or satisfactory cross-breeds are acceptable:

Airdale Terriers; Alaskan Malamutes; Belgian and German Shepherds; Boxers; Collies, preferably farm type; Bull Mastiffs and Mastiffs; Chesapeake Bay, curly coated; flat coated Labrador Retrievers; Irish Water Spaniels; Dalmatians; Doberman Pinschers; Eskimo and Siberian Huskies; and Giant Schnauzers.

Spotting dogs that have been field-trained to hunt game are not acceptable for the K-9 Army Corps. Dr. Kutz points out. To be suitable for war work, dogs must be between the ages of one and five years, over 20 inches high at the shoulder, more than 50 pounds in weight and in good physical condition. Sight and hearing must be good and dogs must have strong jaws with a good set of teeth. They should be aggressive, alert and steady. Timid types are not acceptable and dogs should not be gun-shy and storm-shy.

The next shipment of Army dogs will be about mid-November.

LISBON DISTRICT SOLDIER PRISONER

LISBON, O., Nov. 10.—Arthur H. Johnson of Elkrun township, a member of an American bombing crew, who previously was reported missing in action in a raid over Berlin, is in a German prison camp, it developed here today when Postmaster Earl Richardson sought his relatives to deliver a war department letter and postcards from persons who said they had heard him talk in a short-wave radio broadcast.

The soldier is a son of Mr. and Mrs. Clifford Johnson of the Salem district. His wife, whom he married while in training, is at her home in Minnesota.

CHURCHILL'S TIE BEING REPLACED

CHICAGO, Nov. 10.—(INS)—This may be a severe blow to Winston Churchill's sartorial pride, but the word was spread abroad today that the bow tie affected by Britain's premier rapidly is being displaced in popular favor by Frankie Sinatra's.

The dire news came from the exhibitors at the Chicago Men's and Boys' Wear market.

Churchill's bow tie runs to solid colors and is square at the ends, or so the experts said, while the swoon king's has polka-dot patterns with the pointed ends that are supposed to lend a wistful, little-boy appeal that is no less than devastating.

CAUSE OF BLAST AT ARSENAL GIVEN

METUCHEN, N. J., Nov. 10.—(INS)—The series of explosions at the army's Raritan Arsenal which shook nearby towns and injured three arsenal workmen yesterday was caused when a freight handler dropped a French artillery shell, army authorities disclosed today.

The shell, dropped as it was being taken off a conveyor belt, detonated and started a fire setting off explosions which continued nearly three hours. The magazine and two freight cars were destroyed.

French shells had been shipped to the arsenal for experimental purposes.

The Senior Class of East Brook high school will present the play, "The Campbells Are Coming" in the high school auditorium on Tuesday, November 23 at 8:15 p. m. The side-splitting situations brought on by the Brannigan's attempt to mimic hill-billies, furnish the plot for this farce-comedy by Jay Tobias.

1942 CROP VALUE

HARRISBURG, Nov. 10.—According to the quarterly report of foods held in licensed cold storage warehouses in Pennsylvania, issued by the Bureau of Foods and Chemistry, State Department of Agriculture, there was in storage on September 30, a total of nearly 4,000,000 pounds of fish, 3,600,000 pounds of beef and almost 8,000,000 pounds of pork.

MARINES FIGHT OR FROLIC TODAY

Uncle Sam's Fighting Men Are
Either In Battle Or Relaxing
With Sports

Whenever there is a lull in combat activities in the South Pacific, Marines become restless. The fine-tuned appetite of the Raiders for action must be satisfied. Someone suggest a track meet or a ball game, and the fun is on.

In just some such way as this, United States Marines, during their 168th year, are taking time out from the toughest war they have ever been in, to write a fine new chapter in American sandlot tradition of informal good-natured competition.

Today commemorates the 168th anniversary of their founding, and at this minute, on some island outpost, Marines who are not battling hand-to-hand with the sneaky Japs, are laying out a baseball diamond, putting up a boxing ring, or erecting goal posts for a football field.

This interest in sports is not hard to understand. The corps now has in its ranks some of the outstanding amateur and professional athletes of the nation.

Baseball and football, with boxing and softball close behind, are the favorite sports of Marines. A big Golden Gloves championship was recently held on Guadalcanal.

And that is the way the Marines, today, are observing their 168th anniversary; either fighting the valiant fight, or relaxing in the good old-fashioned American way of keen competitive sports.

It was an Oct. 31, 1687, that the Charter of Connecticut was concealed in an oak tree, to save it from surrender to the Royal Governor Andros.

Catholic Women Convene Thursday

Day Of Recollection Sponsored By C. D. Of A. Study Club At St. Joseph's Church

According to reports received from a large group of Catholic women of Lawrence county will gather on Thursday, to attend the Day of Recollection sponsored by the Catholic Daughters of America Study club, held at St. Joseph's church.

The day will start with Mass and Holy Communion at 8 o'clock. Rev. Fr. Francis C. Sullivan, pastor of St. Joseph's, will be celebrant. During the day four conferences will be given by Rev. Fr. John M. Unger, assistant pastor of St. Joseph's. The group will recite the rosary and prayers for peace during the day, and stations of the cross will also be conducted. Devotions will be held for the faithful departed.

Due to trying times of today, when prayers are needed for an early peace, it is expected that many Catholic women, especially mothers who have sons in the services, will attend to offer their prayers. The day will be one of meditation and prayers and will prove inspiring to all attending.

During the course of the day breakfast and lunch will be served in the social rooms of the church.

In the afternoon, special devotions are planned, and the day will close with a Holy Hour, at 3 o'clock, conducted by Rev. Fr. Francis M. McCarter, pastor of St. Mary's church, and chaplain of the C. D. of A.

INDIAN STUDENT HEARD BY CLUB

Executives Club Gathers At Epworth Church For Monthly Meeting

Members of the Executives club, their wives, and guests, Tuesday evening at a dinner at the Epworth Methodist church heard Dr. Chandra-Sekhar, Indian student and economist, talk on "The Political Problem of India". Speaking as a Hindu, follower of Mohandas Gandhi, and student of the problems of his country, he explained India's determination to achieve independence, Dominion status, as he sees it, even if granted, would be only a step toward complete independence from the sovereignty of Great Britain.

Dr. Chandra-Sekhar was introduced to the audience of 140 by Rev. J. Calvin Rose after a brief opening address by Attorney Roy M. Jamison, president of the club. Invocation was given by J. Clyde Gillfillan.

New members of the club were announced by President Jamison. They are: Vernon Bright, Dr. H. C. Mitchell, J. J. Colgan, Dr. C. E. Flannery, J. C. Liebendorfer, H. E. Wland, Dr. Mildred Rogers, J. W. Moorehead, Norman Nelson, Dr. Ray Robinson, W. W. Wallace.

The speaker began his talk by sketching the history of India in the early centuries before Europe began commerce there about 1600. India became a British colony.

In World War I Gandhi, laying aside his non-violence and pacifism, sanctioned Indian aid to Great Britain and the country poured troops, money, and supplies into the war, believing that it had been promised political self-determination in exchange for its support. In 1935 India was granted a puppet constitutional form of government since the viceroy held the right of veto.

India, mindful of the treatment she received after her all-out participation in World War I, has refused to fight in this war. Only if Japan attacks India, will India fight, the speaker said.

Problems engendered by the religious minorities of India, particularly the powerful Mohammedan opposition to India's becoming a united independent state, problems of the caste system and India's extremely low rate of literacy were acknowledged. Their solution is still a matter of the future.

Dinner was served by the ladies of the Adams and Court street units of Epworth church.

Pro Grid Title Game To Be Played On December 26

Los Angeles Or Chicago Site; Army Air Corps Probable Beneficiary

By JAVIS J. WALSH
(International News Staff Writer)

CHICAGO, Nov. 10.—With the Army Air Corps quite likely to be named as beneficiary, the annual pro league play-off game, doubtless between the Chicago Bears and last year's champion Washington Redskins, will be held December 26 either at the Los Angeles Coliseum or Wrigley Field, Chicago, it can be definitely stated today. The date is a little against Wrigley Field.

So, we suspect, is the army air corps, which has contacted the national football league, and in general, is showing a lively interest in the promotion. Its interest in the 105,000-capacity coliseum would be exactly that much livelier than in the 38,000-park here.

Besides, it could be if you wanted to argue that way that the reason we won't have snow to the arm pits here on December 26 is that it only reaches the knees. But even a league might want to argue that way if it also wanted to crash the Sacrosanct coliseum for the first time with an all-pro game.

Rumor Is False
Parentetically, there was a story printed here yesterday which said, in effect, that the annual pro-bowl game (between the champions and the league all stars) was to be called off this year in order to allow the players to return at the season's close to the shipyards and munitions plants. But that isn't entirely correct. It would be more accurate to state that the pro-bowl game will not be played. . . . If the league can avoid playing it.

It would have gone for the Sugar bowl site in New Orleans, because this also would furnish prestige and "character." But, when it developed that the field . . . by written agreement . . . could only be used for college games, the league lost much of the enthusiasm, if any, it had for the pro-bowl promotion.

For some reason, in fact, it claims not to regard this game as being good "theatre" and, as for it being good business, all possibility of this is effectually eliminated by its charity angle. Practically all the net profits, it seems, of the three Los Angeles games went to charity. The players drew a token award of \$150 plus upkeep and transportation . . . and George Halas is said to . . .

Ne-Ca-Hi Drills In Chilly Weather; New Plays Tried

New plays drew the attention of New Castle high's gridders Tuesday afternoon as the 'Cans drilled in snappy weather for Saturday afternoon's 1943 finale with Harding high of Warren, O. The game is scheduled at Taggart stadium and will start at 2:15 o'clock.

Head Coach Phil Bridenbaugh appeared satisfied as his varsity undertook the new formations. The athletes displayed considerable deception and power.

"For the past two years we were regarded as favorites, and on both occasions the Oilers handed us our only defeat. It seems as though they have our number. For this reason we'll probably shoot something new at them," Bridenbaugh said.

Warren Hefty
Despite a 26-19 surprise by Niles last Friday night, Warren is highly regarded around the local camp. Assistant Coach George "Gig" Thomas, who watched the Harding eleven lose, came back with glowing reports.

Warren will field one of the biggest teams in scholastic circles. The tackles will go well past the 190 mark and spearhead an exceptionally stout line. The backs are fast, powerful and talented, according to Thomas.

To overcome a weight handicap, the locals must accelerate their speed. In order to reach this end, Bridenbaugh is changing around formations. Quite naturally, he prefers not to elucidate on the point.

Physically the squad is in top form. Mike Rousseos continues to show improvement and will play his scholastic finale protected by a brace and pad.

Nine of the varsity hands will be bidding farewell to high school football, and they hope to bow out in grand style.

Boast Two Straight
Saturday's game will be the eleventh between the schools, with N. C. holding a 5-3 edge. Warren has scored in the past two years, defeating the locals by a 13-0 count in 1941 and 7-6 last year. Both setbacks were the only ones on the record.

Fans seem to be showing more interest in the battle as game day approaches. With fair weather the stadium is expected to be crowded.

Church Passers Practice Tonight
Church Basketball league teams continue their practice rounds at the Y. M. C. A. tonight.

The schedule follows:
7:00 to 8:00—St. George and Croton Methodist.
8:00 to 9:00—First Baptist and Epworth Methodist.
9:00 to 10:00—St. Lucy's and Third U. P.

All teams are asked to note the times of the practices and be prompt in reporting. All managers are asked to bring in their players' list and contracts.

Fritzie In N. Y. For LaMotta Tiff

NEW YORK, Nov. 10.—(INS)—Fritzie Zivic, former welterweight champion, was in town today, all set for his 10-round bout with Jacob LaMotta of New York Friday night at the Madison Square Garden.

Zivic tilted the beam at 152 pounds after boxing three rounds with Stanley Miller in a gym workout following a physical checkup at state athletic commission headquarters.

LaMotta, at 165, said he expected to shed four pounds before meeting Zivic.

Fritzie Will Take Army Exam Sunday

PITTSBURGH, Nov. 10.—(INS)—Fritzie Zivic, Pittsburgh welterweight boxer who meets Jake LaMotta in Madison Square Garden Friday night, will take his first army physical examination in Pittsburgh Sunday.

The ex-welter champ is 30 years old and is the father of three children.

What'll you have today?

Football?—Without looking into the official book, Faculty Manager Ralph H. Gardner announced, in an offhand way, that nine of Ne-Ca-Hi's varsity hands don the red and black moleskins for the last time Saturday. The list includes: Mike Rousseos and Tom Sanfilippo, tackles; Joe Joseph and John Izzo, guards; Denny Newman, end; Bob Preston, center; Ted Lewis, fullback; Dick McKee, quarterback; and Harry Lieben, end of graduation. WPIAL coverage or lesser reasons, Gardner said. Rose Williams and Bob Lengyel are the lone holdovers from the current varsity. . . .

Shenango Township and Bessemer, County Class B co-champs, won't meet in a benefit fray. The East New Castle squad has hung 'em up for the season, an official announced yesterday. . . . Grove City, defeated by the locals in the opener, paraded through the remainder of the marathon unbeaten and untied. . . . Aspinwall high, slated to meet Pittsford for the B WPIAL crown, is coached by Art McCombs, ex-Ben Franklin junior high mentor. . . .

With boys in khaki:—Joe Maher, stationed at Camp Polk, La., with the Eighth Army division, is furloughing at his Phillips place home. . . . Sgt. Eddie Sovesky, who nabbed the pass that beat Massillon, writes that he's off the desert and attending a cliff climbing school in Seneca, W. Va. . . . Art C. Toth, with our fleet, forwards a card in which he reports getting a big kick out of looking on the bottom of a dish and learning that the pottery is manufactured in New Castle. "Shenango Pottery only used on our ship. Must be the best. Greetings to all," Ne-Ca-Hi's Best Rooter, Art Toth. . . .

Random shots:—Greasy Neale, who watched ND rip Army, says the "Irish made no mistakes. Army, however, did." I agree with Neale. The Kadets made the error of playing N. D. . . . Penn's gric'ers refuse to eat hamburger. You wouldn't either if you got burned by a hot hamburger. . . . With all the practice their footballers have been getting chasing opponents up and down the field, don't be too surprised if Pitt fields the top college track team in the nation next spring. . . .

IRISH'S RYKOVICH RETURNS TO POST

SOUTH BEND, Ind., Nov. 10.—(INS)—Julie Rykovich, ailing No. 1 right halfback, was back in his old post today as the Notre Dame Irish got down to the serious business of drilling for their invasion of the Northwestern Wildcats' haunts.

Bob Kelly, freshman who carried most of the right halfback assignment in the Army game, was shifted back to the reserves to back up Rykovich.

Temple Concentrates On Offensive Tactics

PHILADELPHIA, Nov. 10.—(INS)—Temple concentrated on offensive measures today as the Owls drilled for the Penn State clash at State College on Saturday. The Templeans, losers of four straight, will seek to repeat their 14-0 conquest of the Nittany Lions in 1941.

Hewitt, Steagle End, Quits Pro Football

PHILADELPHIA, Nov. 10.—(INS)—Bill Hewitt, stellar end of the Philadelphia-Pittsburgh Steagles, announced his retirement Tuesday from professional football.

The all-league end of the national league for the past five years informed Bert Bell, president of the Steelers' part of the combined club, of his action Tuesday morning.

Hewitt said his work in a war plant prevented him from devoting enough of his time to the game.

Tommy Bridges Gets Army Call

DETROIT, Nov. 10.—(INS)—Tommy Bridges, dean of the Tiger pitching staff, has been ordered to report for an army physical examination on November 20, it was announced today.

The 36-year-old right-hander, who won 12 and lost seven in the 1943 campaign for the best Detroit mound average of the season, is married and has one daughter.

Bucks Hold 17-12 Edge Over Illinois

COLUMBUS, O., Nov. 10.—(INS)—The Ohio State Buckeyes polished up their offense today after considerable classroom instruction earlier in the week. The battle with Illinois at Columbus Saturday will be the 32nd meeting between the two schools. The Buckeyes have won 17 games of the series to 12 for Illinois.

NON-SCOUTING AGREEMENT

PHILADELPHIA, Nov. 10.—(INS)—Villanova's Wildcats were pondering scouting reports today for the first time this season as they prepared to face Holy Cross at Worcester Sunday. The blue and white engaged in six games this year without benefit of any first-hand information about the opposition, due to non-scouting agreements.

JUST KIDS

Twenty members of Illinois' present squad, which totals 42, are 17-year-olds and nine are all of 18.

PIRATES SEND ACE FLIER CAP

PITTSBURGH, Nov. 10.—(INS)—A Pirate baseball cap, size six and seven-eighths, was in the mails today for Pittsburgh's flying ace, Army Lieut. Murray J. Shubin, who brought down his tenth enemy plane Oct. 10 over Kahili air drome on Bougainville.

Shubin, who bagged six Jap planes on June 26, requested a Pirate cap when he wrote to his father, Sydney A. Shubin, a bridge engineer. His dad transferred the request to Sam Watters, vice president of the Bucs, who secured the cap and mailed it to the South Pacific area.

Herb Nelson, Tackle, Will Captain Quakers

PHILADELPHIA, Nov. 10.—(INS)—Herb Nelson, a tackle, was named Quaker captain today as Penn continued scrimmages for the North Carolina game at Franklin Field Saturday. Nelson, a Navy V-5 trainee who was converted from end position earlier in the season, led the Red and Blue in its 7-6 triumph over Dartmouth.

Iowa U. Fullback To Play Saturday

IOWA CITY, Ia., Nov. 10.—(INS)—Coach Slip Morgan speeded up practice for the Iowa Hawkeyes today because of the recent curtailed workouts. Fullback Bill Gallagher, the Hawkeyes' leading ground gainer, has received a two-day stay of his induction order and will be available for the Minnesota game Saturday.

IN PRACTICE

HERSHEY, Pa.—Practice session mishap gave Bill Hodgins, right wing for the Hershey hockey club, a fractured nose and knocked out a front tooth.

Irish Have Beaten Wildcats 17 Times

EVANSTON, Ill., Nov. 10.—(INS)—The Northwestern Wildcats today accepted possibly with some misgivings the dubious honor of becoming the eighth team this season to make a stand against the unbeaten Notre Dame Irish.

The game at Evanston Saturday will be a renewal of a rivalry between the two schools that dates back to 1889. In the series Notre Dame has beaten the Wildcats 17 times and has lost only three games. Two games were tied.

Sportsmen Name Nominees Here

Lawrence County Sportsman's Association nominated officers for the ensuing year at a meeting held last night in Neshaug Post 315, V. F. W. Andrew Dadds was unopposed for the nomination of president. Election will be held next month. Other nominated were:

Vice president, James Bell and J. B. Cooper; secretary, Gaylor Hensley and H. N. Drie; treasurer, A. A. Jones and J. T. Allen; directors, E. J. Jorgan, Harvey Blum, Dr. William Horner, Louis W. McClung, Robert E. Fleming and W. L. Diamond; trustees, Karl Rohrer, J. N. Patterson, George Bolinger, Jr., Henry Rodgers and Bob Lamore.

Senate G. O. P. Plans Change

Will Shatter Precedent In Naming Chairman For Campaign Of 1944

HOPES OF G. O. P. ARE REPORTED INCREASED

By WILLIAM K. HUTCHINSON
(U. S. Staff Correspondent)
WASHINGTON, Nov. 10.—The GOP command in the senate is planning to again shatter precedent by naming John G. Townsend, Jr., a former senator from Delaware as chairman of the Republican senatorial campaign committee in hopes he can lead them to control of the senate in 1944.

Townsend headed the committee in 1942. It was the first time in senate history that a civilian headed one of its campaign committees. Under his leadership, the Republicans gained ten seats. If Townsend can again lead such a victory parade, the senate will go Republican for the first time since President Hoover's regime.

The senate lineup today is: 57 Democrats, 38 Republicans, 1 Progressive.

G. O. P. Optimistic
A ten-seat gain by Republicans would make it 48 Republicans, 47 Democrats, 1 Progressive. The lone Progressive (La Follette, Wis.) has always voted with the Republicans on organizational matters.

Senate Republicans are optimistic over the 1944 outlook. In view of the heavy gains scored in 1942 and repeated in last Tuesday's elections in the east and Kentucky, Townsend, a banker and farmer in private life, believes the nation has abandoned the new deal and is ready to return the Republican party to national power. After last week's balloting, he said:

"If the present trend continues, the Republicans will win the presidency, the house and the senate too in 1944."

Senate Republican leaders believe they will gain seats in California, Iowa, Illinois, Indiana, New York, Oklahoma and Washington next year. They also see possibility of victories in Idaho, Maryland, Missouri, Utah and even in Kentucky. They say a gain of seven seats is almost certain with ten seats quite possible.

Democratic senate leaders concede the likelihood of Republican gains next year but deny the senate will go Republican.

SCOUT LEADERS NAMED
GROVE CITY, Nov. 10.—Harry E. McNutt was re-elected chairman of the Commodore Perry Boy Scout District, at the annual meeting held at the A. J. Schell lodge, Grove City-Sandy Lake road. Other officers chosen were: Vice chairman, A. G. Wood; commissioner, Francis Hall; neighborhood commissioners, David Fithian and Ted Husband and Charles Gilmore; members of county executive board, Dr. O. O. Bashline, Normal Crill, Harry E. McNutt, Russell P. Smith, A. G. Wood, C. A. Wood, and W. A. Wright.

Plans were completed for a leadership training school, to be held Nov. 20-21 at the Schell lodge, by County Executive Don King.

COUNTER-DIVORCE SENT BY CROMWELL

NEW YORK, Nov. 10.—(INS)—Doris Duke Cromwell, heiress to a 300 million-dollar tobacco fortune, was in New York today—home from Reno to fight the New Jersey divorce counter-suit of her husband James H. R. Cromwell, former U. S. minister to Canada.

Her Reno suit cannot be heard before Dec. 1. A limited decree in Cromwell's action would entitle him to a share in her estate.

NAVY PAPER EDITOR

NEW WILMINGTON, Nov. 10.—Apprentice Seaman Howard Holschuh, former Westminster College student from New Hampton, N. Y., has been named editor-in-chief of "Tell," campus newspaper at Bethany, W. Va.

A former journalism major at Westminster, Holschuh is enrolled in the U. S. Navy V-12 unit at Bethany. Another Westminster student, Apprentice Seaman Don Hoff Cleveland, is staff artist on the paper.

HALT FOREST FIRE

OLYMPIA, Wash.—(INS)—A mixed crew of fire fighters recently saved western Washington forests from costly damage after fire from a tie mill quickly spread into the surrounding woods. Loggers at the mill, unable to check the blaze alone, mustered 100 high school youths to aid them. Additional reinforcements of 40 conscientious objectors and 60 state prisoners were on the job in short order. In six days the 340 men hemmed in the blaze with a loss of only 1400 acres of burned-over timberland.

PROBE ACCIDENT DEATHS

BEDFORD, Nov. 10.—(INS)—A grand jury investigation in the deaths of Simon Layton, 60, his daughter, Juanita, 18, and Harvey James Greenawalt, 16, was recommended by a coroner's jury today.

They were killed in an automobile accident on a highway near Bedford. The death car was reportedly driven by Richard L. Riley, 17, the coroner's jury accused Riley of gross negligence. Layton formerly resided in Pittsburgh.
